

It Just Makes Cents!

By choosing Kitchener Utilities' tap water you're making a safe, economical, and environmentally friendly decision.

Consider these facts:

Kitchener Utilities' water is safe to drink.

It's regularly tested and exceeds government standards.

Kitchener Utilities' water is the most economical choice.

It costs just 1¢ to fill ten 500 mL bottles with tap water.

Drinking Kitchener Utilities' water is the environmentally friendly choice!

Cups and glasses are reusable, while plastic bottles are generally only used once and unnecessary energy is spent in their collection and recycling.
