Get a reliable natural gas furnace – and immediate savings

With excellent rebates for converting or upgrading to an efficient natural gas furnace, you'll save money right away and you'll continue to save with energy conservation and lower costs in the future.

If you currently have:

Convert to a natural gas furnace/boiler and receive:

(With installation of a programmable thermostat if you do not already have one installed.)

	Mid-efficiency	ENERGY STAR high-efficiency
Conventional natural gas furnace/boiler	\$100 credit*	\$150 credit*
Mid-efficiency natural gas furnace/boiler	n/a	\$100 credit*
Oil or propane furnace/boiler	\$150 credit*	\$200 credit*
Electric furnace or baseboard heaters	\$650 credit¹	\$700 credit¹

* These rebates will be applied as a credit on your Kitchener Utilities bill.

Kitchener Utilities and Kitchener-Wilmot Hydro have teamed up to help make it easy for you to switch from electric heating to a natural gas furnace. When you convert your electric furnace or baseboard heaters to a natural gas furnace, you are eligible for a **\$500 rebate** from Kitchener-Wilmot Hydro.¹ If you choose a mid-efficiency natural gas furnace, you'll earn an **additional \$150** credit from Kitchener Utilities, or select an **ENERGY STAR qualified** high-efficiency natural gas furnace for an **additional \$200** credit from Kitchener Utilities.

When purchasing an **ENERGY STAR** furnace, you can rest easy with your investment. You've made the conscious choice to help save energy and our environment, and you'll save money on your heating bills with the improved efficiency.

¹ Kitchener-Wilmot Hydro will issue a cheque for applicable electric conversion rebates for \$500. The remaining portion of the stated rebates are from Kitchener Utilities and will be applied as a credit on your Kitchener Utilities bill.
