

Moving?

If you're planning to move out of your current home, or into a new one, Kitchener Utilities has some helpful hints to save you time, stress, and money.

Moving? Consider:

- Renting your natural gas water heater from Kitchener Utilities – our rental rates are the lowest in Kitchener, while other providers charge up to 40% more. *Renting from Kitchener Utilities can save you over \$500 in rental fees over the lifespan of your water heater.*
- Having your natural gas furnace and central air systems checked when you move in. Celebrate your move-in anniversary by doing this every year.
- Going to www.kitchenerutilities.ca to complete your account closure and open new account requests online.

Building? Consider:

- Renting your natural gas water heater from Kitchener Utilities – our rental rates are the lowest in Kitchener, while other providers charge up to 40% more. *Renting from Kitchener Utilities can save you over \$500 in rental fees over the lifespan of your water heater.*
- Roughing in natural gas hookups for a natural gas dryer, stove, fireplace, barbecue, or pool heater – doing it now saves time and money later.
- Installing a higher efficiency natural gas furnace and air conditioner for greater energy savings.
- Going to www.kitchenerutilities.ca to complete your account closure and open new account requests online.
