

RATE FREEZE

until the end of 2011.

Kitchener Utilities rental water heater rates are frozen until December 31, 2011.

*Rate Freeze in effect until end of 2011 on your existing water heater rates. Rates may increase if a rental water heater is upgraded and/or replaced.

Save even more money!

New residential tankless water heaters are available with **94% efficiency**. These units provide continuous hot water to accommodate your family's needs. With a plastic venting option, installation is even more versatile, providing you with more options when choosing a water heater for your home.

Please visit www.kitchenerutilities.ca or call **519-741-2626**, option '0', for more information on Kitchener Utilities' rental water heater program.

Great rates & reliable local service you can count on.

*Venting options for tankless units have changed, so more households are compatible.
