

# Rent a natural gas tankless water heater from Kitchener Utilities.

Save space and even more energy!

## Why rent a natural gas tankless water heater from Kitchener Utilities?

According to Natural Resources Canada, water heating accounts for 20% of your home's total energy costs. You could save up to 25%<sup>†</sup> on your natural gas usage for hot water heating with the increased energy efficiency. Rental fee includes all service on the tankless water heater for a minimum of a 3-year term and you'll qualify for an on-bill rebate\* of \$200.

<sup>†</sup> If you don't increase your hot water consumption and you are currently using a conventional natural gas water heater.

\* Rebate does not apply to new homes.

## Continuous hot water. Energy saving. Compact and space saving design.

Tankless water heaters heat your water on demand, so you have hot water when you need it. The new condensing tankless units are even more energy efficient. Unlike conventional water heaters, you pay to heat the hot water you use because there is no energy wasted to continually heat the hot water in the storage tank. Tankless are also much smaller and more compact, requiring much less space. Installation requirements have changed, your household could be compatible for the new unit.

## Replace your water heater with a tankless water heater and you could qualify for rebates.

Rheem tankless water heaters, offered by Kitchener Utilities, are ENERGY STAR approved and you would qualify for a \$200 Kitchener Utilities on-bill rebate\* applied to your account.

\* Rebate does not apply to new homes.

You may also qualify for rebates for other home retrofits through the Federal ecoEnergy Retrofit — Homes Program. To qualify, you must have an ecoENERGY home evaluation first, along with a follow-up evaluation. Kitchener Utilities provides funding to REEP to assist in the energy audit for Kitchener residents. Please contact an ecoENERGY Certified Energy Advisor to schedule a home energy evaluation or visit [www.ecoaction.gc.ca](http://www.ecoaction.gc.ca) for more information. You can also contact REEP Green Solutions at 519-744-9799 or email [info@reepgreen.ca](mailto:info@reepgreen.ca) to book an evaluation, or visit [www.reepgreen.ca](http://www.reepgreen.ca) to learn more about the ecoENERGY and Kitchener Home Energy Grant programs.
