

**More hot water.**  
**Less natural gas.**

Get more hot water for less with  
**a Rheem tankless water heater.**

Tankless water heaters **can save you money** and **reduce your carbon footprint** by using less natural gas — **up to 20% less than conventional water heaters**. They heat your water on demand, so you only pay for the hot water you use. They're quiet and take up less space. When you rent a Rheem natural gas tankless water heater from Kitchener Utilities, **you'll get a \$100 on-bill credit** to your account. And the peace of mind from knowing that **we're always there** if you ever have a problem with it.

To qualify for this program, you must be a Kitchener resident using an operating water softener in your home, and installation charges may apply. Savings are calculated based on natural gas consumption for hot water heating only. Rental rates for tankless natural gas water heaters are \$32 - \$33.50 plus applicable tax, per month.
